

## Work Package (WP2) – Job Shadowing

With a primary goal, to transfer the structure of the Italian and Spanish methodologies tutors with partner organizations and tutors. This initiative equips them with essential tools to expertly organize and conduct training programs.

Starting with European youth, we've added a unique twist – Arab youth workers from Lebanon and Jordan will actively shadow the process, gaining skills to address challenges in their home countries.

WP2 focuses on transferring the "Head, Heart, and Hands" methodology to Lebanese youth workers and the "Feet, Heart, Head, and Hands" methodology to Jordanian youth workers. This exchange sets the stage for equipping youth workers from partner countries with essential tools for effective training

Beyond methodology transfer, WP2 guides youth associations in partner countries, ensuring high-quality program delivery.

Additionally, four educators from Lebanon will receive specialized training on the Scholas pedagogical approach, while two educators from Jordan will focus on the "Democracy" topic using the EITD methodology.

The impact extends to 65 local youngsters, raising awareness about Democracy and fostering a global citizenship perspective.

WP2 embodies a comprehensive effort to transfer knowledge, empower youth workers, and instill awareness about vital societal concepts, enriched by a dynamic job shadowing experience.
