

THYME Project Ended: A Success for Active Citizenship and Interculture!

We announce the end of the Erasmus+ THYME project! This adventure has left an indelible imprint on active citizenship, ethics and the development of social and intercultural competences.

In March, the final event of the project was held in the beautiful setting of Naples. The Neapolitan city, with its warmth and history, welcomed the event with great enthusiasm. At the Municipality of Naples, we celebrated our achievements and reflected on our successful trip.

Tangible results and challenges were presented. The research, training and community involvement activities helped to create a significant impact.

The social and intercultural skills acquired by the participants are a treasure that will continue to grow over time.

All project partners participated in the event, demonstrating the strength of international collaboration. Institutions and stakeholders shared their vision and commitment to a better future.

Although the THYME project comes to an end, its impact will live on through the people involved. Thank you to everyone who helped make this project a success!
